C.I. HAYES INSTALLS MULTIPLE TOOL ROOM VACUUM FURNACES

C.I. Hayes, a Gasbarre Furnace Group company, is pleased to announce the recent installation of two “VCQ-ME” Small Batch Tool Room Vacuum Furnaces for a tool manufacturer located in Vietnam. The ‘Mitee Vac’ is a versatile, small batch vacuum furnace designed to heat treat air/oil hardening materials, braze, anneal, or sinter at temperatures to 2600F. The furnace has two positions, heating and quenching. The heat area is graphite (elements and insulation), and the integral oil quench tank requires no pit.

Located in Cranston, RI, C.I. Hayes designs, manufactures and services industrial vacuum and atmosphere heat treating equipment and has been delivering custom solutions to the heat treating industry for 100+ years.

###
